

Desk connector panel AF-TA Conference

with integrated **Revoluto** microphone powered by **beyerdynamic** 

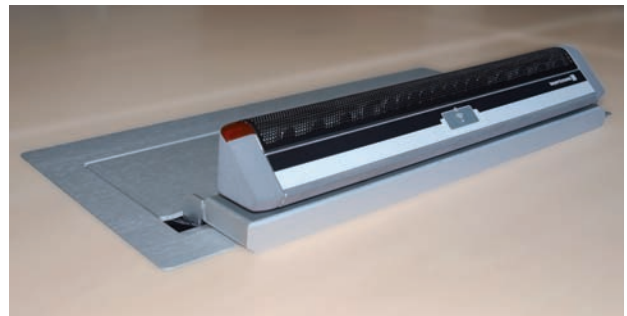

The KOMTECH AF-TA Conference is an ideal combination for video conference technology and / or round table discussions.

Communication terminal and PC connector technology realized in one solution.

AF-TA Conference based on the KOMTECH desc connector panel system in an elegant, high-quality design, in which we built-in a fold-out **Revoluto** microphone.

Original patented *beyerdynamic* technology guaranteed excellent speech intelligibility by optimized corridor characteristic.

In the AF-TA Conference are integrated 2x Schuko power sockets and connectors for 2x LAN, 2x VGA, 2x 3,5mm stereo jack (Feed Through). A customized adaption is possible.

Optional the AF-TA Hybrid is available with circular chamfered or rounded outside edges.

Technical Data Revoluto

Converter principle	Condenser (Back-Elektret)
Frequency range	130 - 17000Hz
Directional characteristic	Passage
Ideal speaker distance	60 - 80cm
Field neutral gear transfer factor	ca. 200mV/PA
Rated impedance	200Ω
Noise power distance	60dB (based on 1PA)
Distortion factor	<0,1%
Power supply	Phantom Feeding 48V (44 - 52V) / 8mA
Connector	3pin XLR

Type	item no.	MSRP	ARG
AF-TA Conference		on request
