

Desk Connector Panel AF-TA Net Tower

The KOMTECH AF-TA Net Tower is a stand-alone connector panel. Standard configuration possesses about an one- or two-sided mounting. Optional an input from all four sides is available.

This connector panel is mobile and has a robust construction. It can be placed in every 60mm / 80mm cable feedthrough of a standard bureau desk (see picture 2). A further table is attachable smoothly.

All cables are managed inside of the connector panel leg down to the feet. Outside it is integrated in a braided hose.
